

Dr. J. C. G. S. 11

July 1914

February 7th, 1914

Rev. John McDougall,
Spencerville.

My dear Dr. McDougall:

It may be very difficult to secure information with regard to the return of graduates to the country. It is not so difficult to secure information as to the sources from which they come. I am sending you a copy of my last Report in which you will find on page 48 details as to the section of Ontario from which our students are drawn. I note that this may help you somewhat. We have to bear in mind that of our graduates many go to the West. Of the medical profession only a small percentage will remain in the city of Toronto. Engineers are scattered far and wide over the country. Ministers, as you know, also are scattered far and wide. Teachers go to the High Schools and Collegiate Institutes. Lawyers probably remain in the larger centres, and a number of other graduates go into business usually in urban centres. A great proportion of the graduates of the University thus fill the professional positions, urban and rural. If there is any further information that I can give you in answer to detailed questions I shall be glad to do my best to help you.

With kind regards, I am,

Yours sincerely,

President.
P
